

LEND A HAND!

Dear SEES Family,

September is National Childhood Cancer Awareness Month and here in our community, 1-2 kids are diagnosed with cancer each week. That's over 100 children each year!

ASK's mission is to make life better for kids with cancer and their families by providing the emotional, financial and educational resources needed to cope with the daily challenges a cancer diagnosis brings.

Sometimes, our kids just have a rough day. Whether it's undergoing a procedure or missing friends from school, children at the clinic need a pick-me-up. That's when selecting a new toy or gift card, or having a snack helps to provide a distraction from the discomfort of treatment.

You can make a difference by donating treasure chest toys, snacks or gift cards as a thoughtful source of comfort to our kids and families. To get started, please see the enclosed list of suggested items.

When it comes to gift cards, no card is too small. Every bit helps! Whether it's Target, Walmart, Amazon or SweetFrog, your donation will be enjoyed. We also welcome gift cards for groceries or gas to help reduce the financial stress of our parents.

Truly, your support is appreciated and will help to make a difference in serving children with cancer and their families in our community!

Gratefully yours,

A handwritten signature in blue ink that reads 'Britt'.
